The Economic Stimulus Package means vastly increased funding not only for infrastructure projects that create jobs, but major increases in funding for education, law enforcement, fire departments, health clinics and hospitals, rural development and rural community facilities, housing, broadband, social services, CDBG, elderly, arts, small business, Indian affairs, and many other areas. Learn how to find and compete for these funds. Funding will end up being awarded to those who are actively pursuing these grants, while the rest of us will wonder what happened. Learn how you can get your share of funding for your agency or organization!

In this 2 1/2 day session, you'll learn:

- What President Obama's Federal Stimulus Package means for your agency or organization
- What funders are looking for
- How to develop proven success strategies
- How to identify funding sources & your funding odds
- How to write proposals that agencies WANT to fund
- How to turn rejected proposals into funded grants
